treated now

Mobile Medical Associates (MMA)

is administering Monoclonal Antibody Treatments (REGEN-COV) to **Qualifying Residents who have been exposed to, or tested Positive for COVID-19.**

The FDA has issued Emergency Use Authorization (EUA) to permit the emergency use of REGEN-COV for the treatment of mild to moderate coronavirus disease.

- This is NOT a substitute for vaccination against COVID-19.
- This is NOT authorized for pre-exposure prophylaxis for prevention of COVID-19.

monoclonal antibodies

are laboratory-produced molecules that act as substitute antibodies which can restore, enhance or mimic the immune system's attack on cells. Monoclonal antibodies for COVID-19 may block the virus that causes COVID-19 from attaching to human cells, making it more difficult for the virus to reproduce and cause harm. Monoclonal antibodies may also neutralize a virus.

residents may qualify for treatment with any of the following: **if they-**

- Have tested positive for COVID-19 and are within 10 days of their test results.
- Are of post-exposure prophylaxis of COVID-19.
- Are NOT fully vaccinated or not expected to mount an adequate immune response to complete vaccination.
- Are at High Risk for progression to severe COVID-19.
- Have immunocompromising conditions including those taking immunosuppressive medications.
- Have been diagnosed with a Chronic Condition.

— For additional qualification criteria and detailed information, download the EUA Fact Sheet on our website at mobilemedicalnow.com/COVIDtreatment —

treatment includes

- Intravenous (IV) infusion.
- Or
- Subcutaneous Route of Administration (4 injections).
- NO Cost to ALFs —

our providers are on call 24/7
